

Dear Patients,

We at Havana Street Dental are excited to introduce you to a new member of our team and the new owner of our practice, Dr. Chelsea Mitchell. It has been a privilege to provide your dental care over the past few years and I truly value the relationships we have built. Unfortunately, my family's time in Colorado has been shorter than expected and we will be relocating back to the Midwest where we are originally from. I was determined to find the right fit for our practice, and after considering many options, I am confident in my decision to bring on and hand over the reins to Dr. Mitchell.

Dr. Mitchell is a highly skilled dentist and a wonderful person. I know she will provide you with the same level of care you are accustomed to. She also has advanced technical skills as a dentist and will be able to provide even more procedures in our office.

Thank you for your support over the last few years. Throughout our transition I will be completing any treatment I have started. Michelle and the rest of our amazing team will continue with Havana Street Dental. I know you are in good hands!

-Dr. Laura

Meet Dr. Chelsea Mitchell

Dr. Chelsea Mitchell is originally from Ogden, Utah, where she grew up skiing, camping, and mountain biking in the beautiful Wasatch Mountains. She completed her Bachelor of Science in Biomedical Engineering at the University of Utah and worked as a medical device engineer for several years. However, she realized she wanted to help patients directly by improving their health and smiles in the dental chair. In 2019, she received her Doctor of Dental Medicine from Roseman University of Health Sciences in South Jordan, Utah. While enrolled, she was a member of the infamous "Plaque Sweepers" winter curling team, formed by dentists.

Dr. Mitchell received the "Most Outstanding Research" award in her class for investigating tooth decay in elderly patients. Her research has been published in the Journal of Dentistry, the British Dental Journal, and the Journal of Molecular and Cellular Cardiology. She completed an Advanced Education in General Dentistry Residency with NYU and received clinical training in root canals, cosmetics, dental implants, and oral surgery at Pascua Yaqui Tribal Dental Center in Tucson, Arizona. She loves seeing family members of all ages, starting at age one. Dr. Mitchell is a proud supporter of military service members and has helped many improve their oral health before deployment.

Dr. Mitchell and her partner have recently moved from Tucson to Denver with their two dogs, Fifi and Millie Nelson. They are excited to be closer to curling, ice climbing, and, most importantly, the beautiful parks here. Dr. Mitchell is honored to be part of the dedicated Havana Street Dental team and to serve the patients of Aurora and Denver. She pledges to listen to your needs and help relieve any anxiety you may feel about visiting the dentist. Dr. Mitchell is excited to meet you at your next visit!
